Objective

Obtain a position as a front-end or full-stack developer with a growing organization that offers a collaborative work environment and encourages learning and innovation.

Experience

CentralApp, Brussels, Belgium

May 2016 – Present

Front-End Developer

- Work closely with both UX/UI and the back-end team to create a responsive, functional, and sleek web application
- Functioned autonomously as a member of a light team
- Worked under a brilliant lead, learning extreme focus on best practices and standards

Doolli, Inc., Buffalo, NY

June 2015 – February 2016

Front-End Developer

- Learned and attempted to emulate more senior members of the team
- Participate in and lead stand ups and scrums at least once a week
- Frequently build new features and perform bug fixes autonomously in an agile environment

CTG, Buffalo, NY

December 2014 – June 2015

Full Stack Developer

- Created new functionality for a big data medical informatics IT solutions team
- Translated big data into actionable format for medical professionals
- Used modern web development techniques and object-oriented design principles to create beautiful and responsive web applications, websites, and web services

Chungdahm Institute, Seoul, Korea

August 2012 – August 2014

Native English Instructor

- Managed and instructed classrooms of four to fifteen students aged two to fourteen

Development and Design Skills

- Modern Javascript development environment, HTML/CSS, PHP
- Git, Atom, Adobe Creative Suite

State University of New York at Fredonia, Fredonia, NY

- *Bachelor of Science* in Computer Science, 2012
