

Nick Barth

Frontend Developer

barth.nicholas@gmail.com - nick-barth.com - amsterdam

Summary

Dedicated craftsmen and creator with six years of experience building modern javascript frontends. Passionate about modern javascript, tech, business, but most importantly, building. React, Vue, HTML, CSS, seo, page speed, d3,

Experience

Fullstack Developer (vue, react, d3, webpack, node, storybook, docker, rancher, ruby)

Brainengineers

2019-present, Amsterdam

As the sole frontend at the company, my responsibilities are building from scratch a content delivery platform used by thousands of clients and an admin dashboard used by our internal staff.

Frontend Lead (vue, react, webpack, storybook, jira)

Nxchange

2018-2019, Amsterdam

Worked as a frontend lead, managed three junior/medior frontends and facilitated communication with PMs and backend leads all while building out an ambitious micro frontend architecture to compliment our diverse backend stack.

Frontend Developer (react, webpack, handlebars, node)

CentralApp

2016-2018, Brussels

Worked as a frontend under a tremendously talented lead, dove deep into javascript and best practices. Also spent time with the business side of the startup, learning lessons in entrepreneurship.

Jr Frontend (jQuery, jira, php)

Doolli

2014-2015, Buffalo

Learned as a junior frontend for a clever team, learned agile methodology, led scrum meetings, learned to navigate the workings of a modern tech team.

Teacher (react)

Hackyourfuture

2016-present, Amsterdam/Brussels

Teaching refugees in the Netherlands and Belgium how to code. My responsibilities are designing React curriculum and teaching React.

Entrepreneur

2012-present

Constant motion, always building. Launched a multitude of unsuccessful websites/apps/saas, and a few successful ones. Mistakes and improvements.
